

WILDLIFE REHABILITATION VOLUNTEER REGISTRATION FORM

Thank you for your interest in wildlife rehabilitation. There are many different ways to help wildlife. This registration form helps us identify ways you might be able to be involved. For example, you may have adequate time and a flexible schedule to be involved with direct rehabilitation. Or, your family or job commitments might restrict daily involvement but could allow you to be involved with special projects or other activities. Please email or mail the completed registration form to the address on the next page. We will first contact you to arrange a short interview and discuss apprenticeship and training programs. We will contact you later to suggest possible involvement options. Again, thank you for your interest.

School

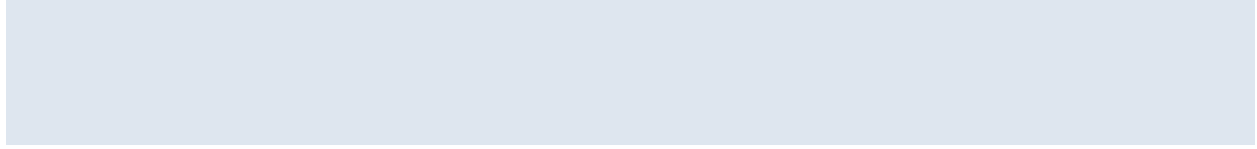

Highest Level of Education

Are you at least 18 years of age? Yes No

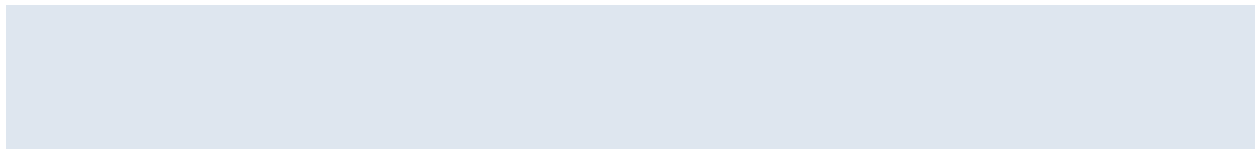

Please describe your interest in becoming a wildlife rehabilitator:

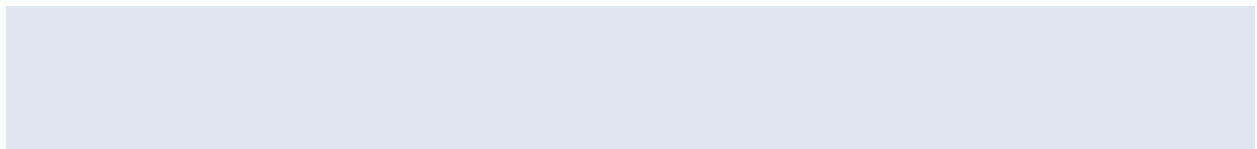

Please describe education and training related to wildlife or rehabilitation activities:

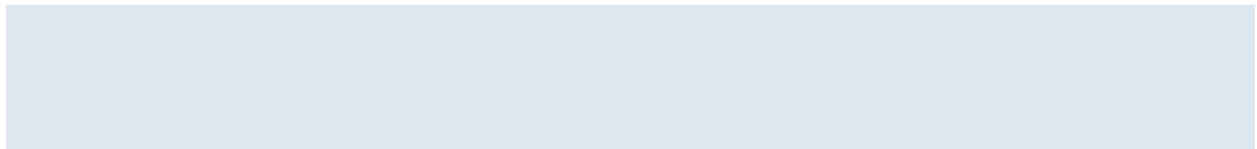

Please describe your previous experience in working with wildlife and other animals:

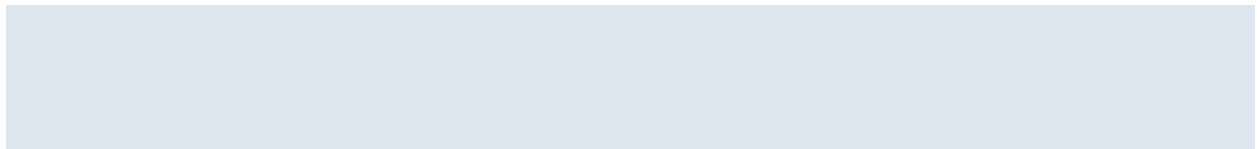

What type(s) of wildlife are you interested in rehabilitating?

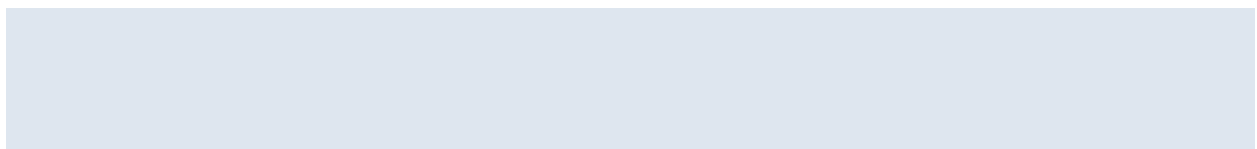

Please describe your time availability and what you can dedicate for wildlife rehabilitation related activities (e.g. hours per day/week for feeding, cage work)?

Wildlife rehabilitation takes considerable commitment. Please describe the general types of commitments you are already involved with on a daily, weekly, and seasonal basis (family, sports activities, pets, hobbies, personal business, professional groups, etc.):

Please describe where and how you would keep wildlife separate from humans, domestic pets, other captive animals (exotics, livestock, etc.), both indoors and outdoors:

By its nature, rehabilitating wildlife can expose people to stresses, parasites, bacteria, zoonoses, injuries, and more. How do you feel about this for you and others at your household?

Euthanasia is an unfortunate part of wildlife rehabilitation. Please describe your feelings on euthanasia.

When was your last tetanus injection?

Have you had pre or post-exposure rabies vaccines?

Yes No

Do you have a car with adequate insurance and would you be willing to transport animals as part of your volunteer work?

Yes No

Do you have a computer and will you be able to enter animal admissions information into an on-line database?

Yes No

Please check the following tasks you would be willing to participate in:

Administration

Fund Raising

Building Cages

Public Relations

Clerical

Rehabilitation

Education

Veterinarian/Vet Technician

Other special skills:
