

## WILDLIFE REHABILITATION VOLUNTEER REGISTRATION FORM

Thank you for your interest in wildlife rehabilitation. There are many different ways to help wildlife. This registration form helps us identify ways you might be able to be involved. For example, you may have adequate time and a flexible schedule to be involved with direct rehabilitation. Or, your family or job commitments might restrict daily involvement but could allow you to be involved with special projects or other activities. Please email or mail the completed registration form to the address on the next page. We will first contact you to arrange a short interview and discuss apprenticeship and training programs. We will contact you later to suggest possible involvement options. Again, thank you for your interest.
